

# Asperger's Syndrome Workplace Survival Guide

A NEUROTYPICAL'S SECRETS FOR SUCCESS

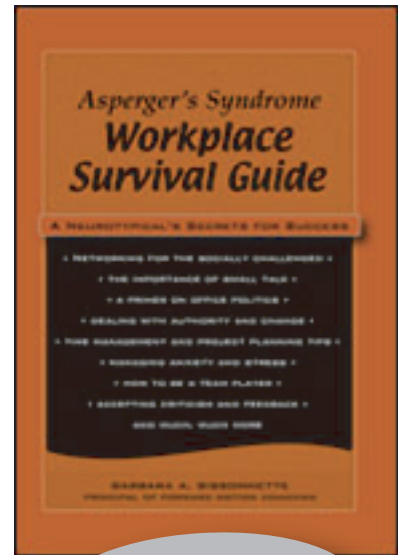

By Barbara A. Bissonnette, Principal, Forward Motion Coaching

This unique guide explains what it takes to succeed in a workplace dominated by neurotypicals. The *Asperger's Syndrome Workplace Survival Guide* covers everything from choosing the right career to deciding whether disclosure is the right option. It features realistic strategies for meeting employer expectations and effectively resolving problems.

**Topics include:** *networking for the socially challenged...the importance of small talk (and how to do it)...a primer on office politics...dealing with authority and change...time management and project planning tips...managing anxiety, fear, anger and stress...how to be a team player...accepting criticism and feedback...and much, much more.*

Examples from coaching clients are used to illustrate common employment challenges and how various techniques are applied in actual circumstances. The pragmatic recommendations will benefit individuals who are entering the workforce, as well as those who struggle to maintain employment, or who want to improve their performance and advance their careers.
